

Wiring V4000 to the Vista Series alarm panel

1. Connect Handset side Tip and Ring on the Control panel to the V4000 Tip and Ring Terminals.
2. Connect the video cables from the CCTV cameras to the BNC connectors.
3. Ensure that the designated trigger zones on the control panel are installed.
4. Connect the keypad bus terminals (ECP)
5. Connect the power supply to the power supply terminals on the V4000.
6. Power up the system.
