LYNXR-2

The Best in Wireless
Home Security...

**Honeywell**

...without compromise.

Sleek, smart and sophisticated, LYNXR-2 provides the installation ease you need with the features your customers want. Designed with both the security professional and consumer in mind, it's easy to install, easy to use and powerful enough for virtually any residential application.

LYNXR-2's sleek, all-in-one design features a control panel, keypad, wireless receiver, siren and dialer. It is ready to install on any wall or tabletop—right out of the box. The voice prompt programming feature actually walks you through the installation process, letting you install the system with little or no training.

LYNXR-2 is the ideal wireless security solution for residential applications like homes, apartments, condos or townhouses. LYNXR-2 is certified to meet the ANSI/SIA-01 2000 standard for

false alarm reductions, reducing the associated costs. Since training, installation time and maintenance are kept to a bare minimum, you'll be able to install more systems in less time. What's more, LYNXR-2 sells itself because it offers your customers the security and convenience features that they want most.

Best of all, LYNXR-2 will make your customer's lives easier than they've ever dreamed possible. They'll wonder how they ever managed without it.

5800 Series Wireless...the industry standard.

LYNXR-2 supports the 5800 Series of wireless transmitters—the most reliable, convenient and cost-effective solutions for security protection. These devices are powerful and versatile enough to help solve even the toughest, most labor intensive installations.

Honeywell's 5800 Series outperforms every other transmitter in the industry. All 5800 Series transmitters send supervisory messages to the control, as well as tamper and low battery notification. Built for year after year of reliable service, most of the devices include readily available, user-changeable lithium batteries, which provide longer life than conventional alkaline batteries and feature a demonstrated outdoor range of over a mile.

With these transmitters, you can put the required sensor in the optimum location cost-effectively for any installation, including those where pet-immune PIRs are required. The 5800 Series is reasonably priced technology that provides superior security and reduced installation costs. No wonder it's the industry standard.

Remote Controls & Keypads

| **5804-2/5804** Two/Four-Button Wireless Keys | **5804BDV** Talking Bidirectional Key | **5805-6** Six-Button Wireless Key | **5878** Wireless Wall Transmitter | **5802MN** Single-Button Personal Panic | **5802MN2** Dual-Button Personal Panic | **5828** Fixed English Keypad | **5828V** Talking Fixed English Keypad |

Door/Window Transmitters

| **5800Micra** Recessed Transmitter | **5815** Door/Window Transmitter | **5816** Two-Zone Door/Window Transmitter | **5818MNL** Door/Window Transmitter | **5820L** Slimline Door/Window Transmitter |

Accessories

| **5800RP** Repeater | **5800WAVE** Siren | **5875** RF Lamp Module |

Space Protection

Smoke & Heat Detection

| **5808W3** Photoelectric Smoke/Heat Detector | **5800CO** Wireless Carbon Monoxide Detector |

1 Quick Voice Prompt Programming
Voice prompt programming enables installers to program the system with little or no training.

2 Full Voice Response LYNXR-2 speaks to your customers in plain English, indicating system status and zone descriptions.

3 Scheduling
LYNXR-2 can be used to schedule events and reminders, and turn lights on or off at specified times. It can even be used as a convenient alarm clock.

4 Family Message Center with Built-in Microphone
LYNXR-2 opens the lines of communication in the home, allowing family members to record and playback brief messages and reminders for each other.

5 Single-Button Operation
LYNXR-2 is so hassle-free that your customers are able to arm their system with a single button without having to enter a code.

6 One-Button and Automatic Paging
LYNXR-2 can notify your customer's numeric pager with a system event or exception. Ideal for working parents, LYNXR-2 can automatically send a page when their child arrives home from school or if no one arms or disarms the system within a specific time frame. LYNXR-2 can also page a family member with the touch of a button.

7 "Follow Me" Alarm and Reminder Announcements
This valuable feature alerts homeowners to alarms and important reminders (e.g., taking medicine, etc.).

8 Lack of Usage Notification
The system notifies the central station if the security system is not armed or disarmed within a programmable time.

9 Crystal Clear LCD Display
The unit's easy-to-read display provides system status, a real-time clock and an indicator that provides system status at a glance.

10 Remote Phone Control
LYNXR-2 keeps your customers connected by allowing them to remotely operate their security system from any touchtone telephone—from their car, office, or anywhere in the world! It can also be used as a convenient, hands-free speakerphone.

11 Full-function 16 Button Keypad
Puts a wide range of security and convenience features at your customer's fingertips.

12 Built-in Wireless Receiver
Supports the proven line of 5800 Series wireless devices, including remote controls with status feedback.

13 Built-in 85 dB Sounder with Voice Siren

14 Two-Way Voice
Integrated two-way voice means central station operators can listen in and talk to the homeowner when a signal is received, reducing the risk of false alarms.

15 Light Control
LYNXR-2's X-10® home automation and scheduling capabilities can turn lights and other devices on or off at pre-specified times.

Ordering Information

LYNXR-2: Wireless self-contained control that supports Internet and GSM communications. Contains built-in two-way voice and speaker phone and comes with a rechargeable battery, transformer and a LYNXR-2 end-user DVD.

LYNXRPK-2: Wireless self-contained system that includes a LYNXR-2, (2) 5816 Window/Door Transmitters and 5890PI Motion Detector.

LYNXR-EN: Wireless self-contained control that contains built-in two-way voice and speakerphone and comes with a rechargeable battery, X-10 ready transformer and a LYNXR-2 end-user DVD.

LYNXRPK-EN: Wireless self-contained system that includes a LYNXR-EN, (2) 5816 window/door transmitters and 5890PI Motion Detector.

LYNXR-2SIA: All features of LYNXR-2 and is certified to meet the ANSI/SIA-01 2000 standard for false alarm reductions.

LYNXR-ENSIA: All features of LYNXR-EN and is certified to meet the ANSI/SIA-01 2000 standard for false alarm reductions.

LYNXR-ISP: Wireless self-contained control that has full Spanish language response.

LYNXRCHKIT-HC: 24-hour battery kit for LYNXR-EN installs.

LYNXRCHKIT-SHA: 24-hour battery kit for LYNXR-2 installs with a 7845i-GSM.
