Honeywell

ADEMCO LYNXR Series Security Systems

## *Voice Prompt Programming Guide*

Introduction

In addition to the standard Expert Programming mode, the LYNXR Series features a quick programming mode that allows you to program the system by responding to a series of voice prompts. The Voice Prompt Programming Guide provides you with the information required to use this feature.

Voice Prompt Programming Keypad Functions:

The keys shown below are used to navigate through the Voice Prompt Programming Feature.

1. **ESCAPE/ OFF key:** Used at any time to exit the current menu and return to the previous prompt.

2. **ADD/ AWAY key:** Used to add sensors, or keys or save data when entering phone or account numbers.

3. **DELETE/ STAY key:** Used to delete a sensor when in the delete Sensors Menu.

4. **SELECT/ AUX key:** Used to confirm a selection.

5. **3↑ key:** Used to scroll forward through menu choices.

6. **6↓ key:** Used to scroll backward through menu choices.

7. **FUNCTION/ # key:** Used to repeat a voice prompt. (This function cannot be used while entering phone or account numbers.)
Notes: (1) Keying in any new command will terminate the active voice prompt.

(2) If an irrelevant command is entered LYNXR will generate a long rejection beep and repeat the previous voice prompt.

(3) Phone numbers and account numbers can be left blank by pressing the "ADD/ AWAY " key without entering any data.

(4) LYNXR automatically saves phone and account number data once all available digits are entered.

ENTERING VOICE PROMPT PROGRAMMING

1. Power-up the control and enter the Installer Code (4 1 1 2) + 8 8 8.

2. Once you have entered into the Voice Prompt Programming Mode the system will announce, "Programming, use ARROWS to scroll choices, press SELECT to accept, press ESCAPE to quit."

3. Press the 6↓ or 3↑ keys to scroll through the voice menu and follow the instructions provided.

4. The system will announce the following options:
   "Add Sensors"
   "Delete Sensors"
   "First Central Station Phone Number"
   "First Central Station Account Number"
   "Second Central Station Phone Number"
   "Second Central Station Account Number"
   "Templates"
   "Expert Programming Mode"

5. Follow the directions provided by each voice prompt to make your selections.

   ✓ The FUNCTION/ # key can be used to repeat a voice prompt, as required.

6. When you have completed each programming procedure the system will return to the Main Programming Menu.

EXITING VOICE PROMPT PROGRAMMING

1. Once you have returned to the Main Programming Menu, the system will announce, "Programming use ARROWS to scroll choices, press SELECT to accept, press ESCAPE to quit".

2. Press **ESCAPE/ OFF ** to exit Voice Prompt programming mode once you have returned to the Main Programming Menu.

Voice Prompt Programming Procedure

Enter Voice Prompt Programming Mode: (Installer Code + 8 8 8). Follow the voice prompts to advance to the selected item in the Main Programming Menu.
Main Programming Menu

Add Sensors	Delete Sensors
First Central Station Phone Number	First Central Station Account Number
Second Central Station Phone Number	Second Central Station Account Number
Templates	Expert Programming Mode

Program each option as shown below. Use the [6 ↓] and [3 ↑] keys to scroll through the voice menu and follow the voice prompts to program the LYNXR.

! **The LYNXR will enroll a sensor once the transmitter has been activated twice. The system will confirm the enrollment following each subsequent activation of the same transmitter.**
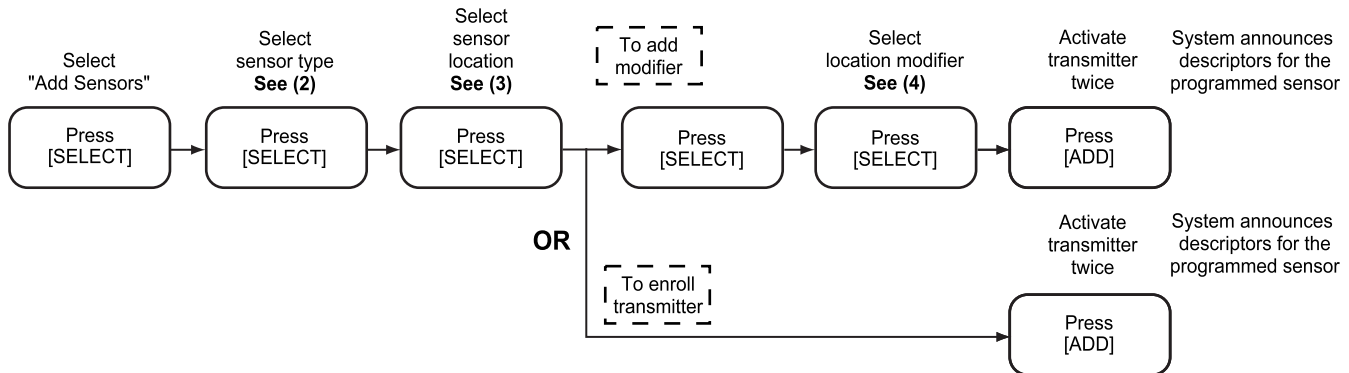

To Add a Door Sensor

Select "Add Sensors"	Select "Delay Door"	Select delay door location **See (1)**	Activate transmitter twice	System announces descriptors for the programmed sensor
Press [SELECT]	→ Press [SELECT]	→ Press [SELECT]	→ Press [ADD]	

(1) Delay Door Location

Front	Basement
Back	Sliding
Side	Hall
Garage	Kitchen
	Patio

To add a Window, Motion Detector, or Fire Detection Sensor

Select "Add Sensors"	Select sensor type **See (2)**	Select sensor location **See (3)**	To add modifier	Select location modifier **See (4)**	Activate transmitter twice	System announces descriptors for the programmed sensor
Press [SELECT]	→ Press [SELECT]	→ Press [SELECT]	→ Press [SELECT]	→ Press [SELECT]	→ Press [ADD]	

OR

To enroll transmitter → Press [ADD] — Activate transmitter twice — System announces descriptors for the programmed sensor

(2) Sensor Type

Window
Motion Detector
Fire Detection

(3) Sensor Location

Living room	Den
Dining room	Family Room
Bedroom	Guest Room
Bathroom	Laundry Room
Nursery	Utility Room
Kitchen	Garage
Hall	Attic
Basement	Office
Master Bedroom	Upstairs

**(4) Location Modifiers**

Upstairs
Downstairs
First
Second
Third
Second Floor

Rear
Side

Voice Prompt Programming Procedure

To Delete Sensors

Select
"Delete Sensors"

Select
Sensor to
be Deleted

```
Press          →    Press
[SELECT]            [DELETE]
```

To Add an Emergency Pendant

Select
"Emergency"

Select
pendant type
See (5)

Activate
transmitter
twice

System announces
descriptors for the
programmed pendant

```
Press     →    Press     →    Press
[SELECT]       [SELECT]       [ADD]
```

(5) Pendant Type
Medical
Fire
Silent Police
Police
! **When adding wireless keys, wait 5 seconds between transmissions.**

To Add a Wireless Key
Select
"Keys"

Activate
transmitter twice

System announces
the key number
```
Press     →    Press
[SELECT]       [ADD]
```

✔ **LYNXR automatically saves phone and account number data once all available digits are entered.**

To Add First Central Station Phone Number

Select
"First Central
Station Phone
Number"

Enter first
central station
phone number
(up to 20 digits)

Enter first
central station
account number
(up to 4 digits)

```
Press     →    Press     →    Press
[SELECT]       [ADD]          [ADD]
```

! **All four digits of the Central Station Account number must be entered.**

To Add First Central Station Account Number

Select
"First Central
Station Account
Number"

Enter first
central station
account number
(up to 4 digits)

```
Press     →    Press
[SELECT]       [ADD]
```

Voice Prompt Programming Procedure

To Add Second Central Station Phone Number

Select "Second Central Station Phone Number"

Press [SELECT] → Press [ADD] → Press [ADD]

Enter second central station phone number (up to 24 digits)

Enter second central station account number (up to 4 digits)
! **All four digits of the Central Station Account number must be entered.**

To Add Second Central Station Account Number

Select "Second Central Station Account Number"

Enter second central station account number (up to 4 digits)

Press [SELECT] → Press [ADD]
✔ **Refer to the LYNXR Series Installation and Setup Guide to view the complete set of Template (default table) selections.**

To Program a Template (Default Table)
Select "Templates"

Select template **See (6)**

Press [SELECT] → Press [SELECT]

(6) Template selections
Template 1
Template 2
Template 3
Template 4
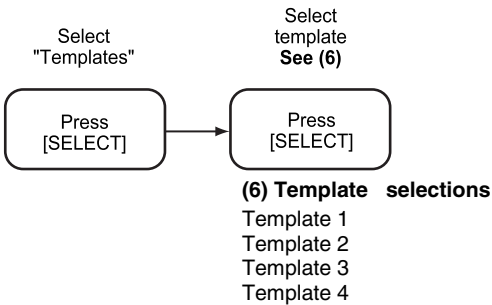

To Enter Expert Programming Mode

! **Once you have entered the Expert Programming Mode, the [ESCAPE] key can be used to return to the Voice Prompt Programming mode.**

Select "Expert programming mode"

Press [SELECT]

System switches to Expert Programming Mode (Refer to the LYNXR Series Installation and Setup Guide or the LYNXR Series Programming Guide for additional programming instructions)
