| VISTA-128FB SUMMARY OF CONNECTIONS                             | 43 |
|  |    |

The purpose of this document is to provide a quick and easy way to program your entire system. A recommended programming procedure is included, followed by a list of program fields with the corresponding program group they belong to (system-wide, partition-specific, scheduling, etc.). Two program forms are included, one contains all the programming fields, and the other contains the partition-specific fields. If you are setting up a single-partition system, the partition-specific fields become system-wide fields.

Following the program forms are system layout worksheets. We recommend that you use these sheets to plan your system before programming is performed. If you need further information about specific programming options, see the VISTA-128FB INSTALLATION INSTRUCTIONS.

Make sure that one two-line alpha keypad is connected to the control and is set to device address "00."

# **Single Partition System**

 The system default is for a single partition system. Use the VISTA-128FB SINGLE PARTITION PROGRAMMING FORM when programming for single partition usage. Follow the steps outlined in RECOMMENDED PROGRAMMING PROCEDURE of this document for proper programming procedure.

#### **Multiple-Partition System**

 You must enter the number of partitions you are using in data field 2\*00 to set the system for multiple partitions. Use the VISTA-128FB SINGLE PARTITION and the PARTITION-SPECIFIC PROGRAM FORMS when programming the system for multiple partitions. Follow the steps outlined in RECOMMENDED PROGRAMMING PROCEDURE of this document for proper programming procedure.

# **SUMMARY OF PROGRAMMING COMMANDS**

- To enter program mode, enter installer code + [8] + [0] + [0] + [0]
- To set standard defaults, press \*97
- **To set communication defaults**, press \*94 + one of the following: \*80=low speed; \*81=Ademco Express; \*82=Ademco High Speed; \*83=Ademco's Contact ID
- To change to next page of program fields, press \*94
- To return to previous set of fields, press \*99
- To erase account & phone number field entries, press [\*] + field number + [\*]
- To assign zone descriptors, press #93 + follow menu prompts
- To add custom words, press #93 + follow menu prompts
- To enter Installer's Message, press #93 + follow menu prompts
- **To exit program mode**, press \*99 OR \*98: \*99 allows re-access to programming mode by installer code. \*98 prevents re-access to programming mode by installer code.

Standard default (\*97) values are shown in brackets [], otherwise default = 0.

# **Recommended Programming Procedure**

The following is a step-by-step procedure recommended for programming your VISTA-128FB system.

# 1. Set the keypads (and other peripheral devices) to the appropriate addresses.

# 2. Set factory defaults by pressing \*97.

This will automatically enable keypad addresses 00-01, so be sure at least one keypad is set to one of these addresses

# 3. Program system-wide (global) data fields.

Using the programming form as a guide, enter program mode and program all system wide programming fields. These options affect the entire system, regardless of partitions. They include control options, downloader and dialer options, RF options, event logging options, etc. Refer to the COMPLETE LIST OF PROGRAMMING FIELDS for a listing of the program fields arranged by function.

Note that field 2\*00 (number of partitions) & field 1\*32 (RF expander type) must be programmed before continuing.

# 4. Program partition-specific fields.

When the system-wide fields have been programmed, program all partition-specific programming fields by first pressing \*91 to select a partition (while still in data field program mode). Then enter the first partition-specific field number \*09. The next partition-specific field will automatically be displayed when you are finished entering the value for field \*09. Partition-specific fields can have different values for each partition. To program the fields for the next partition, press \*91, enter the desired partition number, then enter field \*09. Refer to the MECHANICS OF PROGRAMMING section in the VISTA-128FB INSTALLATION INSTRUCTIONS for detailed instructions.

### 5. Use #93 Menu Mode for device programming.

Refer to the DEVICE PROGRAMMING section to assign keypad ID numbers and default partitions for each keypad, and to selectively suppress certain keypad sounding options. Also use this mode to assign RF receivers, relay modules, the VIP module, the ecp Long Range Radio, and the Vista Gateway Module.

# 6. Use #93 Menu Mode for zone programming.

Refer to the ZONE PROGRAMMING section to program zone response types, assign right loop zones and wireless zones, assign zones to partitions, and to program alarm report codes.

# 7. Use #93 Menu Mode for programming relays.

Refer to the RELAY PROGRAMMING section to program desired relay operation.

#### 8. Program Communication options.

Refer to the COMMUNICATION PROGRAMMING section for further instructions to load communication defaults and to program related fields. Then use #93 mode to program report codes if necessary.

# 9. Use #93 Menu Mode for programming alpha descriptors.

Refer to the ALPHA PROGRAMMING section to enter zone and partition descriptors and a custom installer's message.

#### 10. Use #93 Menu Mode for relay voice descriptors and custom word substitutes.

Refer to the RELAY VOICE DESCRIPTORS section for further instructions for programming relay descriptors to be annunciated by the VIP module, as well as the CUSTOM INDEX section for custom word substitutes.

# 11. Use #80 Mode for programming schedules.

Refer to the SCHEDULING section to program open/close schedules, temporary and holiday schedules, limitation of access schedules, and time driven events.

#### 12. Define user access codes.

Refer to SECURITY ACCESS CODES section to program authority level, O/C reporting option, partition assignments, and wireless key assignments for each user.

# 13. Exit Programming Mode.

Exit programming mode by pressing either \*98 or \*99. Additional entries of \*99 is required if the exit is being done from fields 1\*00 and above.

To prevent re-access to programming mode using the Installer's code, use \*98. The only way to re-access programming mode is by depressing both the [\*] and [#] keys at the same time within 30 seconds of power up.

Exiting by using \*99 always allows reentry into programming mode using the Installer's code. Either way of exiting will allow access via downloading. Note that if local programming lockout is set via downloading, programming mode cannot be entered at the keypad.

# **Program Field Categories**

In the following pages, the programming fields have been arranged by category. Use this index to cross reference the numerical ordered fields on the programming form.

| Field | Group              | Field | Group              | Field | Group              |
|-------|--------------------|-------|--------------------|-------|--------------------|
| *00   | System-Wide        | *69   | Communications     | 1*57  | System-Wide        |
| *08   | System-Wide        | *70   | Communications     | 1*58  | System-Wide        |
| *09   | Partition-Specific | *71   | Communications     | 1*60  | System-Wide        |
| *10   | Partition-Specific | *72   | Communications     | 1*70  | System-Wide        |
| *11   | Partition-Specific | *73   | Communications     | 1*71  | System-Wide        |
| *12   | Partition-Specific | *74   | Communications     | 1*72  | System-Wide        |
| *13   | Partition-Specific | *75   | Communications     | 1*73  | System-Wide        |
| *15   | System-Wide        | *76   | Communications     | 1*74  | System-Wide        |
| *16   | Partition-Specific | *79   | Communications     | 1*75  | System-Wide        |
| *17   | System-Wide        | *80   | Communications     | 1*76  | Partition-Specific |
| *19   | System-Wide        | *83   | Communications     | 1*77  | System-Wide        |
| *20   | System-Wide        | *84   | Partition-Specific | 2*00  | System-Wide        |
| *22   | Partition-Specific | *85   | Partition-Specific | 2*01  | System-Wide        |
| *23   | Partition-Specific | *87   | Partition-Specific | 2*02  | System-Wide        |
| *24   | System-Wide        | *88   | Partition-Specific | 2*05  | Partition-Specific |
| *25   | System-Wide        | *89   | Communications     | 2*06  | Partition-Specific |
| *26   | Communications     | *90   | Partition-Specific | 2*07  | Partition-Specific |
| *27   | Communications     | 1*01  | #93 Menu Mode      | 2*08  | Partition-Specific |
| *28   | System-Wide        | 1*02  | #93 Menu Mode      | 2*09  | Partition-Specific |
| *29   | Partition-Specific | 1*03  | #93 Menu Mode      | 2*10  | Partition-Specific |
| *30   | Communications     | 1*04  | #93 Menu Mode      | 2*11  | System-Wide        |
| *31   | Communications     | 1*05  | #93 Menu Mode      | 2*18  | Partition-Specific |
| *32   | Partition-Specific | 1*06  | #93 Menu Mode      | 2*19  | Partitioning       |
| *33   | Communications     | 1*07  | #93 Menu Mode      | 2*20  | Partition-Specific |
| *34   | Communications     | 1*08  | #93 Menu Mode      | 2*21  | System-Wide        |
| *35   | System-Wide        | 1*09  | #93 Menu Mode      | 2*22  | Partition-Specific |

# **SUMMARY OF PROGRAMMING COMMANDS**

- To enter program mode, enter installer code + [8] + [0] +
- To set standard defaults, press \*97
- To set communication defaults, press \*94 + one of the following: \*80=low speed; \*81=Ademco Express; \*82=Ademco High Speed; \*83=Ademco's Contact ID
- To change to next page of program fields, press \*94
- To return to previous set of fields, press \*99
- To erase account & phone number field entries, press
   [\*] + field number + [\*]
- To assign zone descriptors, press #93 + follow menu prompts
- To add custom words, press #93 + follow menu prompts
- To enter Installer's Message, press #93 + follow menu prompts
- To exit program mode, press \*99 OR \*98: \*99 allows reaccess to programming mode by installer code. \*98 prevents re-access to programming mode by installer code.

# **Partition-Specific Fields**

# (Duplicate this page for each partition in the installation.)

# To program these fields,

- 1. Press \*91 to select a partition.
- 2. Enter a partition-specific field number (ex. \*09).
- 3. Make the required entry.
- 4. Repeat steps 1-3 for each partition in the system.

|        |   | PARTITION #              | PROGR | RAM FIELDS  |
|--------|---|--------------------------|-------|---|

# **Programming With #93 Menu Mode**

NOTE: The following fields should be preset before beginning: 2\*00 Number of Partitions; 1\*32 receiver type. In addition, receivers should be programmed via Device programming.

After programming all system related programming fields in the usual way, press #93 while still in programming mode to display the first choice of the menu driven programming functions. Press 0 (NO) or 1 (YES) in response to the displayed menu selection. Pressing 0 will display the next choice in sequence. Menu selections are as follows:

#### ZONE PROG? 0=No 1=Yes

For programming the following:

- Zone Number
- Zone Response Type
- Partition Number for Zone
- · Dialer report code for zone
- Bell/Aux. relay assignment for zone
- Input Device Type for zone (whether RF, polling loop, etc.)
- Enrolling serial numbers of 5800 series transmitters & serial polling loop devices into the system.

SEQUENTIAL LEARN? 0=No 1=Yes For programming the following:

- Input Device Type for zone (whether RF, polling loop, etc.)
- Enrolling serial numbers of 5800 series transmitters & serial polling loop devices into the system (all other zone characteristics must be pre-programmed).

REPORT CODE PROG? 0=No 1=Yes For programming the following:

- · Alarm report codes for zones
- Restore & supervisory codes
- All other system report codes

ALPHA PROG? 0=No 1=Yes For entering alpha descriptors for the following:

- Zone Descriptors
- Installer's Message
- Custom Words
- Partition Descriptors
- · Relay Descriptors

DEVICE PROG? 0=No 1=Yes For defining the following device characteristics for addressable devices, including keypads, RF receivers (4281/5881), output relay modules (4204/4204CF),

4285/4286 VIP Module, ECP long range radio (7820), and vista gateway module:

- Device Address
- Device Type
- Keypad Options (incl. partition assignment)
- RF House ID
- LRR Options (incl. programming radio)

RELAY PROG? 0=No 1=Yes For defining output relay functions.

RLY VOICE DESCR? 0=No 1=Yes For entering voice descriptors for relays to be used with the 4285/4286 VIP Module.

CUSTOM INDEX ? 0=No 1=Yes

For creating custom word substitutes for VIP Module annunciation.

CLEAR RF SERIAL#? 1=Yes 0=No For deleting all RF serial numbers presently in the system, if an undesired transmitter has been enrolled during sequential enrolling.

# **#93 MENU MODE KEY COMMANDS**

The following is a list of commands used while in the menu mode.

| #93     | Enters Menu mode  |
|---------|---|
| [*]     | Serves as ENTER key. Press to have keypad accept entry.   |
| [#]     | Backs up to previous screen.  |
| 0       | Press to answer NO  |
| 1       | Press to answer YES   |
| 001-009 | All data entries are either 2-digit or 3-digit entries.   |
| 000     | Escapes from menu mode, back into field programming mode, when entered at the first question for each category. |

# **System Layout Worksheets**

As with any security system, you should first define the installation. This includes determining how many partitions will be used, how many zones per partition, and how many users per partition. You will also need to determine what peripheral devices will be needed, and basic system options such as exit/entry delays, etc. The control panel itself should be located in an area that will facilitate wire runs to all partitions, and will allow access to power and telephone circuits.

To help you lay out a partitioned system, use the following worksheet. This will further simplify the programming process.

|                 |                            |                 | PARTITIC       | DNS   |

Zone Types: 00=zone not used

06=24 hour silent

01=entry/exit 1 02=entry/exit 2 03=perimeter 04=interior (follower)

05=day/night burglary

07=24 hour audible 08=24 hour auxiliary 09=supervised fire

10=interior (delay)

16=Fire w/Verification 17=Fire Waterflow 18=Fire Supervisory

19=24 hour trouble 20=arm stay

21=arm away 22=disarm

23=no alarm response 27=access control 28=MLB supervision

**Input Types:** 00=not used

01=hardwired

03=supervised RF transmitter 04=unsupervised RF transmitter

05=RF button transmitter

06=serial number polling loop 07=dip switch type polling loop 08=right loop dip switch polling loop

09=keypad input

10=PassPoint ACS input

# **Bells/Auxiliary Relay Activation:**

0=none 4=auxiliary relay

1=bell 1 5=bell 1 & auxiliary relay 2=bell 2 6=bell 2 & auxiliary relay 3=bells 1 & 2 7=bells 1 & 2 & auxiliary relay

# **Output Relays Worksheets**

# Applicable only if Relays (4204/4204CF) are to be used.

★ Output Devices – Programmed in the #93 Menu Mode in the Relay Programming Section. Fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.

**Note:** The Device Programming section must be programmed for the device address. Set the dip switches on the 4204/4204CF for that address.

A = DEVICE ACTION 0 = No Response; 1 = Close for 2 sec; 2 = Close and stay closed; 3 = Pulse on and off; 4 = Toggle alternately between START and STOP events.

**EV = EVENT** 0 = Not used; 1 = Alarm; 2 = Fault; 3 = Trouble; 4 = Restore

ZL = ZONE LIST 1-8, 0 = Not Used.

"START" ZONE LIST: Upon alarm, fault, or trouble of ANY zone in this list, device

action will START.

"STOP" ZONE LIST: Upon restore of ALL zones on this list, device action will

STOP. It need not be same list as used for START.

#### ZT = ZONE TYPE/SYSTEM OPERATION

# **Choices for Zone Types are:**

00=Zone Not Used 06=24 Hour Silent 17=Fire Waterflow 01=Entry/Exit 1 07=24 Hour Audible 18=Fire Supervisory 02=Entry/Exit 2 08=24 Hour Auxiliary 19=24 Hour Trouble 03=Perimeter 09=Supervised Fire 23=No Alarm Response 04=Interior (Follower) 10=Interior (Delay) 27=Access Control 05=Day/Night Burglary 16=Fire w/Verification 28=MLB Supervision

**NOTE:** Any zone in "ZT" for Start, going into alarm, fault, or trouble will activate the relay. Any zone in "ZT" for Stop, that restores will stop the relay action.

#### **Choices for System Operation are:** 52 = Kissoff 20 = Arming-Stay 37 = 2 Times Bell Time-out\* 38 = Chime54 = Fire Zone Reset 21=Arm Away 22 = Disarming 39 = Fire Alarm 55 = Disarm + 1 Minute 30 = On Second Off 40 = Bypassing 56 = XX Minutes (enter XX in field 1\*74) 31 = End of Exit Time 57 = YY seconds (enter YY in field 1\*75) 41 = AC Power Fail 32 = Start of Entry Time 42 = System Battery Low 58 = Duress33 = Any Burglary Alarm 43 = Communication Failure 60 = Audio Alarm Verification\*\* 34 = Code + # + 71 Key Entry44 = RF Low Battery 61 = Code + # + 67 Key Entry35 = Code + # + 72 Key Entry45 = Polling Loop Failure 62 = Bell 2 Time-out\* 36 = At Bell Time-out\* 51 = RF Receiver Failure 63 = Aux. Relay Time-out\* \*Or at disarming, whichever occurs first \*\*Must be selected for both START and STOP operation

P = PARTITION No. 1-8, 0 = Any

**ZONE LISTS FOR OUTPUT DEVICES** – Programmed in the #93 Menu Mode in the Relay Programming Section. Fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.

**Note:** Record desired zone numbers below. More or fewer boxes than shown may be needed, since any list may include *any* or *all* of system's zone numbers.

| Zone List 1: Started or stopped by zone numbers (enter 00 to end entries).   | etc. |
|--|------|
| Zone List 2: Started or stopped by zone numbers (enter 00 to end entries).   | etc. |
| Zone List 3: Started or stopped by zone numbers (enter 00 to end entries).   | etc. |
| Zone List 4: Started or stopped by zone numbers (enter 00 to end entries).  Zone List 5: Started or stopped by zone numbers (enter 00 to end entries). | etc. |
| Zone List 6: Started or stopped by zone numbers (enter 00 to end entries).   | etc. |
| Zone List 7: Started or stopped by zone numbers (enter 00 to end entries).   | etc. |
| Zone List 8: Started or stopped by zone numbers (enter 00 to end entries).   | etc. |

# **Alpha Descriptor Vocabulary**

(For Entering Alpha Descriptors. To select a word, press [#] followed by the word's 3-digit number.) **NOTE: This vocabulary is not to be used for relay voice descriptors.** See the RELAY VOICE DESCRIPTORS section when programming relay voice descriptors.

# **Scheduling Menu Prompts**

To program schedules, enter Scheduling program mode by pressing [Installer Code] + # + 80 to display the first choice of the menu driven programming functions. Press 0 (NO) or 1 (YES) in response to the displayed menu selection. Pressing 0 will display the next choice in sequence. Menu selections are as follows:

| Time V | /indow ? |   |  |
|--------|----------|---|--|
| 1 Yes  | 0 = No   | 0 |  |

For defining up to 20 time windows each with a start and a stop time programmed by entering the hours and minutes.

O/C Schedules ? 1 Yes 0 = No 0

For defining the daily open and close schedules for the 8 partitions. Each partition can be programmed with an opening and closing window for each day of the week and holidays.

Holidays ? 1 Yes 0 = No 0 For defining up to 16 holidays for which partitions they apply.

Timed Events ? 1 Yes 0 = No 0 For defining up to 20 time driven events with the following parameters:

- Time window
- Action desired
- Action specifier
- Activation time
- Days of the week

Access Sched. ? 1 Yes 0 = No 0 For defining the limitation of access schedules for the user codes. Each schedule can be programmed with two window for each day of the week and holidays

#### #80 & #81 MENU MODE KEY COMMANDS

The following is a list of commands used while in the menu mode.

| #80 or<br>#81 | Enters Menu mode  |
|---------------|---|
| [*]           | Serves as ENTER key. Press to have keypad accept entry.   |
| [#]           | Backs up to previous screen.  |
| 0             | Press to answer NO  |
| 1             | Press to answer YES   |
| 01-09         | All data entries are either 2-digit entries.  |
| 00            | Escapes from menu mode, back normal operation mode, when entered at the first question for each category. |

# **Scheduling Worksheets**

**Time Windows Definitions Worksheet**. The system provides 20 time windows that are defined with start and stop times. They are programmed in the #80 Menu Mode. Fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.

| Time Window<br>Number | Start Time<br>(HH:MM) | Stop Time<br>(HH:MM) |
|-----------------------|-----------------------|----------------------|
| 1                     |                       |                      |
| 2                     |                       |                      |
| 3                     |                       |                      |
| 4                     |                       |                      |
| 5                     |                       |                      |
| 6                     |                       |                      |
| 7                     |                       |                      |
| 8                     |                       |                      |
| 9                     |                       |                      |
| 10                    |                       |                      |
| 11                    |                       |                      |
| 12                    |                       |                      |
| 13                    |                       |                      |
| 14                    |                       |                      |
| 15                    |                       |                      |
| 16                    |                       |                      |
| 17                    |                       |                      |
| 18                    |                       |                      |
| 19                    |                       |                      |
| 20                    |                       |                      |

(Keep this worksheet handy, as you will be asked for a given time window number later in this section).

Since the time windows are shared among all partitions, it is important to make sure that changing a time window does not adversely affect desired actions in other partitions.

**Daily Open/Close Schedule Worksheet**: Using the time windows previously defined, fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.

| Part | Mon |    | Tu | es | W  | ed | Th | ur | F  | ri | S  | at | Sı | un | Н  | ol |
|------|-----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|

| 1    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| 2    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| 3    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| 4    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| 5    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| 6    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| 7    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| 8    |     |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |

**Holiday Schedule Worksheet:** The system provides up to 16 holidays that can be assigned for the system. Each holiday can be assigned to any combination of partitions. Fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.

| HOL |           |   |   | Part | ition |   |   |   |   |
|-----|-----------|---|---|------|-------|---|---|---|---|
| •   | Month/Day | 1 | 2 | 3    | 4     | 5 | 6 | 7 | 8 |
| 1   | /         |   |   |      |       |   |   |   |   |
| 2   | /         |   |   |      |       |   |   |   |   |
| 3   | /         |   |   |      |       |   |   |   |   |
| 4   | /         |   |   |      |       |   |   |   |   |
| 5   | /         |   |   |      |       |   |   |   |   |
| 6   | /         |   |   |      |       |   |   |   |   |
| 7   | /         |   |   |      |       |   |   |   |   |
| 8   | /         |   |   |      |       |   |   |   |   |
| 9   | /         |   |   |      |       |   |   |   |   |
| 10  | /         |   |   |      |       |   |   |   |   |
| 11  | /         |   |   |      |       |   |   |   |   |
| 12  | /         |   |   |      |       |   |   |   |   |
| 13  | /         |   |   |      |       |   |   |   |   |
| 14  | /         |   |   |      |       |   |   |   |   |
| 15  | /         |   |   |      |       |   |   |   |   |
| 16  | /         |   |   |      |       |   |   |   |   |

**Time-Driven Event Worksheet:** The system provides up to 20 time driven events that can be programmed for the system. Fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.

| Sched | Time   |   |   |   | Day | /(s)      |   |   |   | Action  | Action    | Activation |
|-------|--------|---|---|---|-----|-----------|---|---|---|---------|-----------|------------|
| Num.  | Window | М | Т | W | T   | /(s)<br>F | S | S | Н | Desired | Specifier | Time       |
| 1     |        |   |   |   |     |           |   |   |   |         |           |            |
| 2     |        |   |   |   |     |           |   |   |   |         |           |            |
| 3     |        |   |   |   |     |           |   |   |   |         |           |            |
| 4     |        |   |   |   |     |           |   |   |   |         |           |            |
| 5     |        |   |   |   |     |           |   |   |   |         |           |            |
| 6     |        |   |   |   |     |           |   |   |   |         |           |            |
| 7     |        |   |   |   |     |           |   |   |   |         |           |            |
| 8     |        |   |   |   |     |           |   |   |   |         |           |            |
| 9     |        |   |   |   |     |           |   |   |   |         |           |            |
| 10    |        |   |   |   |     |           |   |   |   |         |           |            |
| 11    |        |   |   |   |     |           |   |   |   |         |           |            |
| 12    |        |   |   |   |     |           |   |   |   |         |           |            |
| 13    |        |   |   |   |     |           |   |   |   |         |           |            |
| 14    |        |   |   |   |     |           |   |   |   |         |           |            |
| 15    |        |   |   |   |     |           |   |   |   |         |           |            |
| 16    |        |   |   |   |     |           |   |   |   |         |           |            |
| 17    |        |   |   |   |     |           |   |   |   |         |           |            |
| 18    | _      |   |   |   |     |           |   |   |   |         |           |            |
| 19    |        |   |   |   |     |           |   |   |   |         |           |            |
| 20    |        |   |   |   |     |           |   |   |   |         |           |            |

Below is a list of the "Action" codes (desired actions) used when programming time driven events. Note that these codes are independent of the "relay codes" programmed during the #93 Menu Mode—Relay Programming mode. If using Time Driven Events to control relays, the following menu items must first be programmed using #93 Menu Mode - Relay Programming:

Enter Relay No. (reference identification number)

Relay Group (if applicable)

Restriction

Relay Type (4204 or none)

**ECP Address** 

Relay No. if 4204 relays

### Relay commands:

Action Specifier for commands 01-05 is Relay #, for commands 06-10 is Relay Group #.

01 = Relay On 02 = Relay Off

03 = Relay Close for 2 seconds 04 = Relay Close XX minutes (field 1\*74)

05 = Relay Close YY seconds (field 1\*75) 06 = Relay Group On

07 = Relay Group Off 08 = Relay Group Close for 2 seconds

09 = Relay Group Close XX minutes (field 1\*74) 10 = Relay Group Close YY seconds (field 1\*75)

#### Arm/Disarm commands:

Action Specifier for commands 20-24 is Partition(s), Activation times 1 (Beginning), 2 (End), 3 (During) are the only valid choices for auto-arming and disarming functions.

20 = Arm-Stay 21 = Arm Away

22 = Disarm 23 = Force Arm Stay (Auto-bypass faulted zns)

24 = Force Arm Away (Auto-bypass faulted zns)

### **Bypass commands:**

Action Specifier for commands 30-31 is Zone List #, Activation times 1 (Beginning), 2 (End), 3 (During) are the only valid choices for bypass commands.

30 = Auto bypass - Zone list 31 = Auto unbypass - Zone list

### **Open/Close Windows:**

Action Specifier for commands 40-41 is Partition(s), for 42 is Access Group, and for 50 no specifier is programmed. Activation time 3 (During) is the only valid choice for these commands.

40 = Enable Opening Window 41 = Enable Closing Window 42 = Enable Access Window

50 = Off-Normal Reminder (Starts local keypad beeping if fire off-normal condition exists)

# **Activation time:**

Refers to when the action is to take place relative to the time window.

- 1 = Beginning of time window
- 2 = End of time window
- 3 = During time window active period only (On at beginning of window, off at end).
- 4 = Beginning and end of time window (ex. -Coffee break buzzer).

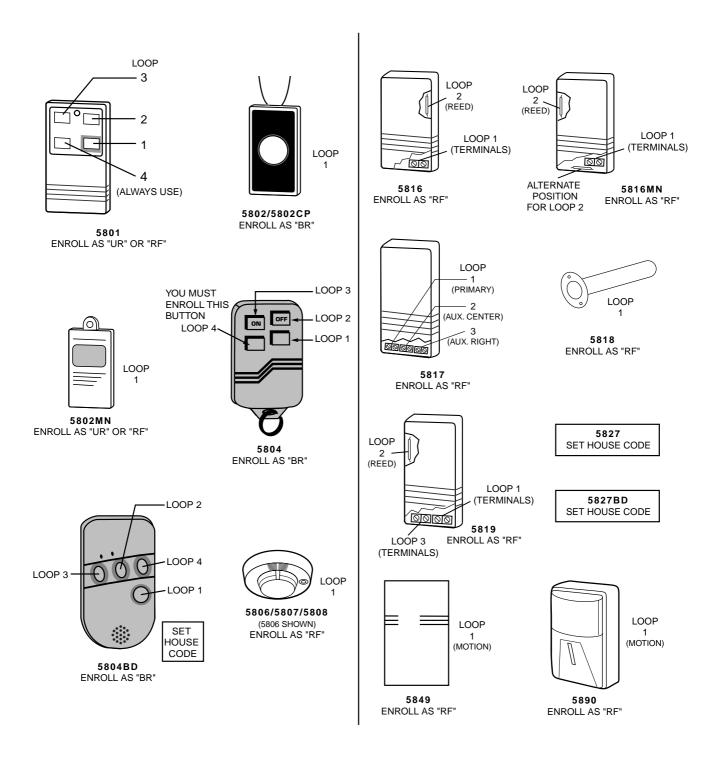

**Limitation of Access Worksheet** The system provides up to 8 Access Schedules that can be programmed for the system. Fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.

| Acc | Acc Mon |    | on Tues Wed |    | ed | Th | urs | F  | ri | Sat |    | Sun |    | Hol |    |    |
|-----|---------|----|-------------|----|----|----|-----|----|----|-----|----|-----|----|-----|----|----|
| Sch | W1      | W2 | W1          | W2 | W1 | W2 | W1  | W2 | W1 | W2  | W1 | W2  | W1 | W2  | W1 | W2 |
| 1   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |
| 2   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |
| 3   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |
| 4   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |
| 5   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |
| 6   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |
| 7   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |
| 8   |         |    |             |    |    |    |     |    |    |     |    |     |    |     |    |    |

**Temporary Schedule #81 Menu Mode** The system provides a Temporary Schedule for each partition. Enter the temporary scheduling mode by pressing [Installer Code] + #81. Fill in the required data on the worksheet below and follow the procedure in the installation instructions as you enter the data during the displays and prompts that appear in sequence.
