# ProxCard II® Proximity Access Card

The ProxCard II Proximity Access Card incorporates radio frequency identification electronics into a thin, durable polycarbonate package approximately the size of a standard credit card. Thin and flexible enough to be carried in a wallet or on a strap clip, the ProxCard II cards replace the thick, rigid cards previously associated with other proximity technologies.

ProxCard II cards are easily customized with multicolored graphics. With the application of a self-adhesive photo pouch or PVC overlay, the ProxCard II card is compatible with most photo ID systems.

HID's advanced technology has created a proximity card with extremely consistent read range that is not affected by body shielding or environmental conditions. HID's broad selection of reader designs offers a variety of read ranges.

Specifications

Typical maximum read range:

MiniProx® reader	4-5.5″ (10-14 cm)
ThinLine II™ reader	4-5.5″ (10-14 cm)
ProxPro® reader	5.5-8″ (14-20 cm)
MaxiProx® reader	16-24″ (40-60 cm)

Dimensions:
3.375″ x 2.125″ x 0.070″ max.
(8.57 x 5.40 x 0.18 cm)

Card construction:
ProxCard II® proximity access cards are slot punched, offer custom graphics, and are compatible with most adhesive photo pouches.

Operating temperature:
-50° to 160° F (-45° to 70° C)

Operating humidity:
5-95% relative humidity (noncondensing)

Weight:
0.24 oz. (6.8 gm)

Warranty:
The ProxCard II proximity cards are provided with a lifetime warranty against defects in materials and workmanship. (See complete warranty policy for details.)

Part number

Base Part No.:	1325
Description:	125 kHz, HID Artwork, External Number Matches Encoded ID Number, Slot Punch
Options:	• Frequency (125 kHz or 400 kHz) • External Card Numbering • Custom Graphics
Companion Products:	1321 PhotoPouch Overlay
	1324 PVC Direct Print Overlay

(Please see "How to Order" guide for a description of the options and associated part numbers.)

Features

Proven, reliable technology: The read range of the ProxCard II proximity card is extremely consistent. It is not affected by body shielding or variable environmental conditions, even when close to keys and coins.

Thin: Carry it with your credit cards in your wallet or purse.

Cross-reference: A cross-reference list correlating the external card number and the programmed ID number is provided for easy system administration.

Security: The ProxCard II proximity card offers over 137 billion unique codes.

Long life: ProxCard II proximity cards offer a passive, no-battery design allowing an infinite number of reads.

Durability: ProxCard II proximity cards are strong and flexible for resistance to cracking and breaking.

Custom graphics: Custom multicolor graphics are available.
