Turn door chime on/off: \[ OR press \[chime\] (if enabled) |
Turn on bypassed zones (if Stay armed): \[ |
View alarm memory: \[ |
View troubles: \[Troubles indicated by numbers 1-8 on top of keypad display. See “Viewing Trouble Conditions” in Instruction Manual for list of trouble definitions) |

WARNING: Please refer to the System Instruction Manual for information on limitations regarding product use and function and information on the limitations as to liability of the manufacturer.

The PKP-ICON keypad shows the status of your security system using an LCD-style display, along with fixed words and numbers.

This instruction sheet describes the basic features of the keypad. For more detailed information on your security system and how to use it, please read your system’s Instruction Manual.

Important Note: Test system weekly and have any system trouble conditions corrected by your alarm installer.
Using the PKP-ICON Keypad

The PKP-ICON works similarly to the other keypads described in your system’s Instruction Manual. For more information on individual functions, see your system’s Instruction Manual.

Viewing Open Zones

Before you can arm your system, all the zones must be closed. If some zones are currently open, the keypad will display “Open”. and the Ready light will be off. To see the numbers of the open zones, press ⎽. Before you try to arm your system, go to the open zones and close all doors and windows, and make sure no one is present in zones with motion detectors.

Viewing Zones in Alarm

If there is an alarm on your system the keypad will display “Alarm” and will scroll the numbers of the zones affected.
