

Features

- 15 volts 3.0A regulated power supply
- Self-resetting solid state over current protection devices eliminate the need for replacement fuses

Specifications

- Transformer required: 18VAC, 40VA or 80VA transformer
- Output: 15VDC 1.5A maximum with 40 VA transformer; 15VDC 3.0A maximum with 80VA transformer
- Dimensions: 145mm (5.7 in.) L x 83mm (3.3 in.) W x 56mm (2.2 in.) H over heat sinks

Mounting the Power Supply

It is suggested that the PS3085-15 be mounted in a cabinet; the DSC DLC-1 cabinet features mounting holes designed for the PS3085-15. From the back of the cabinet, press circuit board stand-offs into the appropriate holes and mount the cabinet. With the cabinet in place, secure the PS3085-15 to the stand-offs. If stand-offs cannot be used, double-sided foam tape may be used to mount the PS3085-15. Ensure that the foam tape is thick enough to raise the PS3085-15 away from any conductive surface.
