

HS-SP7670 Safety Plug

INSTALLATION INSTRUCTIONS

Introduction

The HS-SP7670 Safety Plug plugs into any standard residential 120VAC electrical outlet to provide control over appliances rated up to 1500 watts maximum. The module's user-selectable timer automatically turns off power to the appliance when the preset time has elapsed, ensuring that appliances are not left on for long periods of time without supervision. The appliance may be turned ON or OFF manually using the buttons on the Safety Plug.

The HS-SP7670 features advanced load-sensing circuitry. The connected appliance can be turned ON or OFF using the appliance's ON/OFF switch. Load sensing will also turn on power to the appliance when it detects that the appliance has been connected to the module.

Specifications

Supply Voltage:	120VAC \pm 10%, 60Hz
Output Load:	1500W max.
Operating Temperature:	-20°C to 40°C, non-condensing humidity
Controls:	ON/OFF buttons, Timer slide switch
Indicators:	Red LED – no power to appliance Green LED - power to appliance
Timer Range	approximately 1 minute to 60 minutes
Approvals:	UL, ULC, ICS03, and FCC Part 15

Warning: Do NOT exceed the electrical ratings listed here.

Timer Operation

1. Plug the HS-SP7670 into a 120VAC residential power outlet.
2. Connect the appliance to the outlet on the safety plug.
3. Set the timer for the length of time you want the appliance to be on (approximately 1-60 minutes). Power to the appliance will turn off when the timer expires.

Manual Operation

1. To turn the power to the appliance On, press the ON button. Power will be on according to the setting of the timer switch.
2. To turn the power to the appliance Off, press the OFF button.

Warranty

Digital Security Controls Ltd. warrants that for a period of 12 months from the date of purchase, the product shall be free of defects in materials and workmanship under normal use and that in fulfillment of any breach of such warranty, Digital Security Controls Ltd. shall, at its option, repair or replace the defective equipment upon return of the equipment to its repair depot. This warranty applies only to defects in parts and workmanship and not to damage incurred in shipping or handling, or damage due to causes beyond the control of Digital Security Controls Ltd. such as lightning, excessive voltage, mechanical shock, water damage, or damage arising out of abuse, alteration or improper application of the equipment.

The foregoing warranty shall apply only to the original buyer, and is and shall be in lieu of any and all other warranties, whether expressed or implied and of all other obligations or liabilities on the part of Digital Security Controls Ltd. Digital Security Controls Ltd. neither assumes responsibility for, nor authorizes any other person purporting to act on its behalf to modify or to change this warranty, nor to assume for it any other warranty or liability concerning this product.

In no event shall Digital Security Controls Ltd. be liable for any direct, indirect or consequential damages, loss of anticipated profits, loss of time or any other losses incurred by the buyer in connection with the purchase, installation or operation or failure of this product.

WARNING: Digital Security Controls Ltd. recommends that the entire system be completely tested on a regular basis. However, despite frequent testing, and due to, but not limited to, criminal tampering or electrical disruption, it is possible for this product to fail to perform as expected

IMPORTANT INFORMATION: Changes or modifications not expressly approved by Digital Security Controls Ltd. could void the user's authority to operate this equipment.

FCC Compliance Statement

CAUTION: Changes or modifications not expressly approved by Digital Security Controls Ltd. could void your authority to use this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the Instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

The user may find the following booklet prepared by the FCC useful: "How to Identify and Resolve Radio/Television Interference Problems". This booklet is available from the U.S. Government Printing Office, Washington D. C. 20402, Stock # 004-000-00345-4. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
