

FA215KP

The FA215KP is an attractive, easy-to-use keypad. System status is spelled out in plain-English—there are no confusing symbols or blinking lights. The FA215KP features backlit keys for easy nighttime viewing.

Features of the FA215KP:

- LCD Window:** Shows all system messages.
- OFF Key:** Disarms the burglary portion of system. It also clears the display after an alarm.
- Maximum:** Arms both perimeter and interior burglary systems and removes entry delay.
- INSTANT Key:** Arms perimeter, but not interior, burglary system and removes entry delay.
- READY Key:** When pressed before arming, all faulted protection zones are displayed.
- Internal Sounder** Makes sounds to distinguish between burglary, fire, chime, entry and check conditions.
- # Key:** Permits you to arm your system without entering a security code.
- Armed Indicator:** Lights when system is armed.
- Ready Indicator:** Lights when ready to arm.
- Keys 0-9:** Used to enter access codes.
- AWAY Key:** Arms both perimeter and interior burglary systems.
- STAY Key:** Arms perimeter burglary system but not interior burglary protection.
- TEST Key:** Tests system and sounder.
- BYPASS Key:** Temporarily removes selected protection points from the system.
- CHIME Key:** Used to enable the system to sound a tone whenever there is an entry through a perimeter zone
- CODE Key:** Allows entry of additional codes for alternate users.
- Zone Directory:** Slide-out card lists system zones.
