

# FA220KP

EASY-TO-USE LCD DISPLAY KEYPAD

FIXED WORD DISPLAY

The FA220KP keypad is a cost effective, innovative, high-quality security solution for your home or business. Providing simple and clear communication with a fixed word display and backlit keys, the FA220KP keypad takes the mystery out of security. Get the First Alert Professional comprehensive yet easy-to-use security system that looks great too!

- Simple and clear communication with fixed word LCD
- Easy-to-use program keys in case of an emergency
- Bright backlit keys for convenient viewing in the dark
- Built-in sounder for notification of fire, burglary and system warnings

## FEATURES:

- LCD Window:** Shows all system messages
- KEYS 0-9:** Used to enter access codes
- OFF Key:** Disarms the burglary portion of system. It also clears the display after an alarm
- AWAY Key:** Arms both perimeter and interior burglary systems
- STAY Key:** Arms perimeter burglary system but not interior burglary protection
- MAX Key:** Arms both perimeter and interior burglary systems and removes entry delay
- TEST Key:** Tests system and sounder
- BYPASS Key:** Temporarily removes selected protection points from the system
- INSTANT Key:** Arms perimeter, but not interior burglary system and removes entry delay
- CODE Key:** Allows entry of additional codes for alternate users
- CHIME Key:** Used to enable the system to sound a tone whenever there is an entry through a perimeter zone
- READY Key:** When pressed before arming, all faulted protection zones are displayed
- (#) Key:** Permits you to arm your system without entering a security code
- ARMED Indicator:** Lights when system is armed
- READY Indicator:** Lights when system is ready to arm
- Internal Warning Sounder:** Makes sounds to distinguish between burglary, fire, chime, entry and check conditions
