COLOR TOUCHCENTER GRAPHIC KEYPAD WITH VOICE

First Alert Professional's innovative color TouchCenter Graphic Keypad with voice makes operating your system easier than ever.

A simple touch on the screen and you can arm and disarm your system, bypass zones or control lights and some appliances. With easy to understand icons and menu-driven prompts, you are walked through the system operation every step of the way.

The built-in family message center feature allows users to record and play back voice messages right from the keypad. No more missed messages or loose pieces of paper flying around!

- Voice annunciation speaks system status, zone status and alarm information
- Big, bright, colorful graphic display is easy-to-read and is the ultimate in convenience
- Innovative color touchscreen operation
- Easily operate security and lighting
- Record and playback voice messages
- Built-in speaker and microphone
