TOUCHCENTER GRAPHIC KEYPAD FAMILY

First Alert Professional graphical keypads help dealers close more sales and increase retention with their large, intuitive touchscreen displays that can be customized for the dealer or end-user. Dealers can increase their advertising exposure by displaying their company name or logo on the homescreen and increase end-user referrals by putting a picture and name of the homeowner's family.

The TouchCenter Graphic Keypad family is very simple to use, with its menu driven prompts and icons. It is easy to understand with voice annunciation of system status and zone information. The family message center keeps family members in touch by letting them record and playback messages for one another (voice keypads only).

## FEATURES:

- Customizable homescreen for dealers or end-users\*
- External MMC card slot for fast homescreen customization or software upgrades
- Large, black and white or color touchscreen display
- Intuitive touchscreen display with icons and menu driven prompts

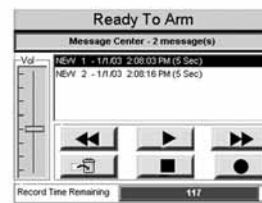

- Voice annunciation of zone # and type of emergency during alarm situation and system status during normal operation
- Family message center (for voice versions only)
  - Record and playback messages for family members
  - Over two minutes of recordable time
  - Blinking LED indicates a message has been sent
- Entry/Exit Delay countdown displayed
- Authorized end-users can add or delete user codes
- View entire zone list with status of each zone
- End-user can quickly bypass zones from zone list

## TOUCHCENTER GRAPHIC KEYPAD FAMILY

### FEATURES:

#### Event Log

TouchCenter conveniently displays the most recent actions involving system use. A press on the touchscreen is all it takes to access the event log, letting users easily:

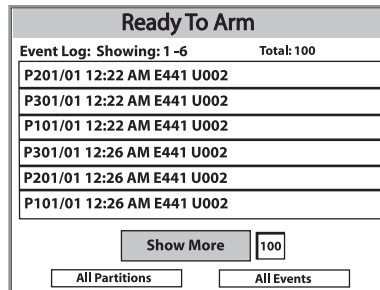

- View when the system was used and who used it
- Track when workers and temporary guests use the system
- Keep tabs on family members (e.g., checking if a child has armed the system upon returning home from school)
- Utilize the TouchCenter as an effective business management tool (e.g., viewing openings and closings)

#### Keypad

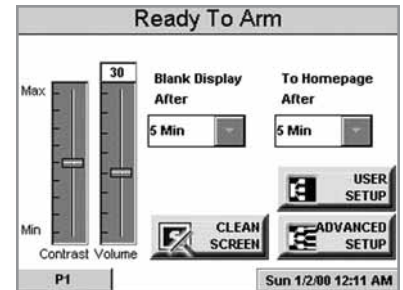

- Emulation of standard 2x16 alpha LCD keypad display
- Diagnostics allows testing of:
  - LCD display
  - Audio
  - LED indicators
