

# Aegis Control Modules

## Home & Lifestyle Management System

Aegis Control Modules are specifically designed to control and coordinate a home's lighting, temperature and security. The control module allows the home owner access to every home function through wall-mounted consoles, any telephone, or through the internet via personal computer or PDA with optional software. Aegis control modules are available in three sizes: the Aegis 1000 for apartments and townhomes, the Aegis 1500 for average sized homes and the Aegis 3000 for larger buildings.

### Lighting Control

- Controls both the hardwired Aegis Lighting Control System and various X-10 systems
  - Aegis Lighting Control features full two-way operation and programmable fade rates
  - Lighting can automatically trigger based in motion, door opening, time or security mode.
  - Can automatically trigger lights a specified number of minutes before or after sunrise/sunset
  - Emergency lighting can automatically flash house lights on when a break-in occurs
  - Lighting Scenes can coordinate all lights for party, home theater, or a quiet evening at home
- Automatic light sequencing can make the home looked lived-in when the house is empty
  - All lights also operate manually

### Security

- UL/Industry Canada approved security/fire prevention system with vandal resistant cabinet
- Extensive lightning/surge protection with 12-hour backup battery
- Approved digital dialer with Contact ID
- Security violations automatically flash house lights and audibly announce violated zones
- Three levels of user priority with timed access
- Multiple partitions available on Aegis 1500 and 3000

### Temperature Control

- Aegis automatically controls the temperature, fan and mode in multiple HVAC zones
- Outdoor temperature sensor anticipates temperature load for maximum efficiency and comfort
- Aegis "sets-back" unused temperature zones when homeowners leave home or go to sleep
- User can manually override the system at any time

### Human Interface

- All functions controllable from Aegis wall mounted consoles
- Complete access and control from any fixed or mobile telephone, on-site or off-site
- Control also available through Scene Switches and AVMS touch screens
- Complete Internet based monitoring or control through a computer or Pocket PC
- Off-site programming through dealer software
- Consoles display text messages for important reminders
- Aegis announces important messages with an easy to understand voice
- Aegis can call or send an email to inform homeowners of important events with option components

### Connectivity

- Multiple RS-232/485 interfaces available for connection to other systems
- Multiple voltage/relay outputs available
- Built-in interface for Aegis AVMS and scene switches
- All Aegis controllers may be mounted in OnQ cabinets for a completely integrated wiring solution

### Warranty 5 years

Specifications subject to change without notice.
