

Snap-Link Mobile

Technical Sheet

Monitor and control lights, security, audio, temperatures, and webcams on PDAs and Smartphones when using an HAI home control system.

Snap-Link Mobile puts control of your home in the palm of your hand! Simply click on the HAI logo that appears on your Smartphone/PDA and you have instant access to your Snap-Link Mobile home control page. From there you can:

-  Conveniently control individual lights, turn off all lights in the home or room, dim lights or adjust preset lighting scenes.
-  View real time video of surveillance cameras - see your front door, nursery, pool, boat dock, etc.*
-  Conserve energy by adjusting heating and cooling and view humidity and outdoor temperatures.
-  Arm or disarm the alarm, view a security log to monitor activity of housekeepers, nannies, etc.
-  Control your Whole Home Audio system. Select music source and adjust volume levels in individual rooms or the whole house.

Once purchased, HAI's Snap-Link Mobile is downloaded directly into a mobile device. It features secure encrypted communications over Wi-Fi or cellular data networks. Snap-Link Mobile is sold without subscription fees and users receive free updates. Snap-Link Mobile does not rely on any third parties to work other than cellular service. There is no set-up for Snap-Link Mobile other than the initial installation.

Snap-Link Mobile is designed specifically for a mobile device with a Touchscreen, navigation key, or scroll wheel. It requires an HAI Omni IIe, OmniPro II, Lumina, or Lumina Pro home control system to be installed in the home.

** Requires appropriate cellular provider plan and cameras.*

Snap-Link Mobile Can Control:

Convenient

With Snap-Link Mobile you can use your cell phone as a remote control for your home!

Surveillance Video

Use IP cameras to see your home from anywhere in the world! Scroll through cameras to view boat docks, front doors, pool areas, etc.

Check up on sick or elderly relatives when you are not there. Record video based on motion, event, or time.

Status

Time of Day, Day of the week and Date, Security Mode, System Status, and your HAI Home Control System Model are displayed for a quick check-up on your home.

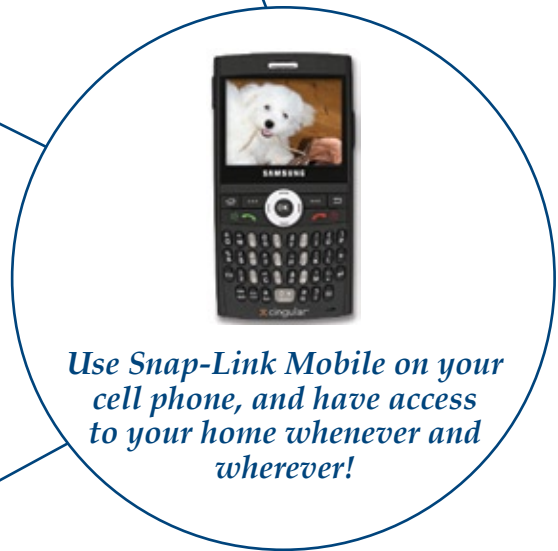

Buttons

Buttons are a way to quickly initiate a chain of commands, or to initiate a function that is not already assigned an icon.

Have a "Water Lawn" button to turn on the sprinkler system.

Or have a "Romantic Evening" button to drop the shades, turn on the whole home audio system, dim the lights, and activate other features controlled by an HAI home control system.

Use Snap-Link Mobile on your cell phone, and have access to your home whenever and wherever!

Snap-Link Mobile Can Control:

Security

Monitoring and controlling security features is easy.

Arm or disarm the alarm, view a security log, or select to bypass or restore an individual zone (area).

Energy Management

Conserve energy while maintaining the comfort level within your home. Adjust heating and cooling by zone.

View humidity and outdoor temperatures. Adjust the temperature in your home while leaving work.

Lighting Control

Conveniently check and adjust your home's lighting scenes.

Dim lights, set timers, control individual lights, or turn all lights on/off by room or by house.

Snap-Link Mobile works great on PDA's!

Whole Home Audio

Select music source and adjust volume levels in individual rooms or whole house.

Control Hi-Fi by HAI or an audio system from one of HAI's Connectivity Partners.
