The Industry's First UL Listed Wireless Carbon Monoxide Detector!

Linear

LN-DXS80	Carbon Monoxide Alarm
LN-DXCOKIT	CO Detector and Receiver (LN-DSX80, LN-DXR702)

FEATURES:

Wireless Carbon Monoxide Alarm Kit

The Linear LN-DXCOKIT is a combination package containing an LN-DXS80 wireless carbon monoxide detector plus a LN-DXR702 2-channel wireless receiver. The receiver can be connected to most hardwire alarm control panels to provide the system with wireless carbon monoxide detection capabilities.

- Works on most major control panels
- Includes one LN-DXS80 CO detector
- Includes one LN-DXR702 two-channel receiver (channel 1 reports alarm, channel 2 reports low battery, interconnects to any alarm panel that works with NO or NC contacts

Wireless Carbon Monoxide Alarm

The Linear LN-DXS80 is a carbon monoxide alarm with a built-in transmitter designed to be used with Linear's wireless DXS Format Security Systems, Personal Emergency Reporting Systems (PERS), and stand-alone receivers. The DXS80 provides a warning to alert against both the acute and chronic effects of carbon monoxide (CO) poisoning.

When carbon monoxide is detected, the alarm sounds a loud local alarm. The built-in transmitter sends a digitally coded wireless signal to its companion receiver every 10 seconds until the air has cleared and the detector is restored.

- Six year sensor life
- Six year battery life
- Electrochemical method of detection
- Meets UL2034, UL2075, and FCC Part 15
- Compatible with Linear PERS, and all DXS formatted products
