

VIP-GATEWAY Universal 4-Camera IP Module

Universal CCTV module that enables the economical connection of up to four analog video cameras of any brand, existing or new, to be seamlessly, easily monitored over broadband internet. The gateway, works with dynamic IP and IP sharing allowing multiple gateways to be connected to a router.

Designed for 10Mbps ethernet networks, it connects via UTP CAT5 cable. It provides 8 ports for trigger in contact, supporting a wide range of trigger devices simultaneously. Using unique RJ12 cable for power, it simply connects via the input/output cable to the camera! (Uses the same infrastructure as the Napco VCAM-IP network camera.)

Includes: unit, CD with software and user's guide and easy online account enrollment instructions, RJ45 ethernet cable, power adapter with trigger in/out connectors. Includes 2 year passcode-protected subscriber web access.

VIP-GATEWAY/24 Module, supporting up to 4 analog cameras (any brand), as above with 24-month account web video access.

Looking for a value-added service for your customers? Napco internet-Video products provide accounts online and cellphone access to new or existing CCTV systems

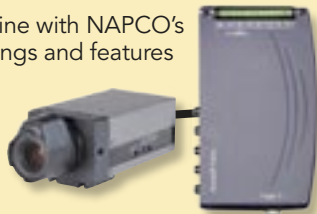

Now you can offer the hot video service that puts your residential and commercial accounts online with fast **broadband internet video of their premises** at any PC or video cellphone* – do it with Napco iInternet-Video products using a dedicated, secure website. Customers can look in anytime or have their security system trigger video emails on alarm, for video verification, on opening and closings, zone opens, etc. Plus, video can be auto-archived for their review later. Simply enroll customers' accounts online, and an affordable monthly video-access fee gives them secure web access and video monitoring capability 24-7. There's no sluggish dial up and no special software for the customers to install on their home or work PC either! And, Wi-Fi 802.11B and up are supported, too.

NAPCO i-Video products are at your distributor and come with everything you need to build your business offering accounts a wealth of peace of mind. (Web pkg, config. software, hardware, RJ45 ethernet cable, power adapter.)

Existing Accounts –

Put existing analog cameras online with NAPCO's **ViP-GATEWAY**, superior in savings and features to competitive dial-up models. Connect up to 4 cameras of any brand for seamless video verification and monitoring over broadband internet. (specifications sheet #A486)

New Accounts –

Offer affordable NAPCO **VCAM-i Color Camera** with built in internet connection. This plug-and-play, professional quality **VCAM-i** offers a great little all-in-one internet video solution. (specifications on reverse) Or, use the **ViP-GATEWAY with any camera brand.**
