

Easy Series Intrusion Control Panel

Designed for residential and small commercial applications, the Easy Series Intrusion Control Panel requires minimal training and support and is easy to install, configure, and test. The control center speaks while showing animated icons, so that the user quickly understands the information and tasks.

- ▶ Supports up to 32 total input points
- ▶ Advanced false alarm reduction
- ► Integrated proximity reader
- ▶ Speaks language of choice
- ▶ Remote Programming Software (RPS) support
- ► Simple icon-based control center
- ► Integrated digital dialer, voice dialer, text messaging, and two-way audio verification

System Overview

- 1. Control Center
- 2. Sensor and Audio Components
- 3. Radio Frequency Identification (RFID) Reader and Token
- 4. Information Button
- 5. Icon Indicators
- 6. Function Buttons
- 7. Voice Module
- 8. Programming Key
- 9. Easy Series Intrusion Control Panel
- 10. DX2010 Input Expander Module
- 11. Power Supplies

 The Easy Series Intrusion Control Panel can use a wired-in power supply or transformer, according to regional primary voltage input requirements.
- 12. Optional Dual Tamper Switch

Terminal Blocks

Easy Series terminal blocks are color-coded to clearly show where to connect the power supply, telephone line, control center, and assorted devices such as smoke detectors or motion detectors. Each input and output has a dedicated pair of terminals, making installing and wiring the system easier to understand and execute.

Functions

Advanced False Alarm Reduction

The Easy Series Intrusion Control Panel system guards against user-generated false alarms through design features such as Graduated Annunciation and Intelligent Threat Assessment. Easy Series uses enhanced false alarm verification methods that exceed industry false alarm reduction standards.

Graduated Annunciation

The system gradually increases the control center volume, changes the animation of the control center display, and incrementally pulses the warning devices. The control center notifies users when the system is preparing to send an alarm and provides options to cancel reports, reducing false alarms

Alarm Verification

The following alarm verification methods reduce false alarms without compromising usability or reliability.

- Two-way Audio Verification: Provides remote customers the ability to listen to and speak with users at the protected premises.
- Sequential Verification: When two or more input sensors activate within a specified time period, an intrusion alarm is considered verified. For example, if a door sensor and a motion detector both sense alarms, the system sends a verified alarm report.
- 3. Intelligent Threat Assessment: The Easy Series Intrusion Control Panel uses protection levels, input types, input conditions, and system event timing to assess a potential threat. If the threat reaches a specific threshold, the system sends a verified alarm report.

Easy Series Intrusion Control Panel Configuration

Users can configure the Easy Series Intrusion Control Panel with the necessary regional parameters for a specific country without changing hardware. Installers can configure the system using their language of choice and then set the system to the appropriate language for the user. Installers can remotely program the system using a telephone or Remote Programming Software (RPS). A voice prompted installer mode reduces service and installation costs while ensuring accurate programming.

Remote Programming Software (RPS)

RPS is a separate software package that allows computers equipped with the Microsoft Windows operating system and a modem to act as a remote programming, record storage, remote control, and troubleshooting tool for specific control panels.

Certifications and Approvals

Compliance with specific standards, such as SIA CP-01 and DD243, reduces false alarms and is required in many locations. The Easy Series Intrusion Control Panel is designed to comply with the following certifications, approvals, and standards:

ANSI/SIA CP-01 False Alarm Immunity

EN50131-1 Grade 2

Input Points

Maximum Number of

32

Input Points:

Hardwire Input Points: Eight on-board

- Hard-wire single, zone-doubling, or dual end-of-line (EOL) tamper.
- Input 1 also supports two-wire smoke detectors, all input points support fourwire detectors.
- Enclosure tamper input (does not reduce input point capacity).

Hardwire Expansion Input

Points:

Up to 24 with three DX2010 Input Expander Modules (32 total).

Each DX2010 provides eight additional input points. The Easy Series Intrusion Control Panel supports up to three modules.

Outputs

On-board:

Four

- Configurable solid state
- Internal siren driver option for speakers (output 4 only)

Number of...

Control Centers:

Four

- · Audible voice prompts included
- · Accepts passcodes or tokens for user

arming and disarming

DX2010 Expansion Modules:

Three on the Option Bus

Users:

Up to 20 (20 passcodes and 20 tokens)

Events:

500 history events, stamped with time and

date

Power Requirements

Primary Voltage Source:	110 V, +10% or -15% (47 Hz to 62 Hz) 230 V, +10% or -15% (47 Hz to 62 Hz)
Primary Voltage Input (AC):	18 V (47 Hz to 62 Hz)
Primary Voltage Input (DC):	18 V non-polarized
Secondary Voltage Input (DC):	12 VDC, 7 Ah or 18 Ah sealed lead acid rechargeable battery
Total Power:	1.4 A
Auxiliary Power:	1.0 A

Easy Series Kit Ordering Information

Kits include one control panel, enclosure, oval control center, power supply, and two RFID tokens unless noted otherwise.

Requires a separately purchased voice module for operation.
 Requires a separately purchased voice module, power supply, and enclosure for operation.

Ordering Information	
IUI-EZ1 Oval Control Center Oval control center that includes a speaker, microphone, function buttons, and a bubble level.	IUI-EZ1
ICP-EZM2-NA Intrusion Control Panel One control panel with AE1 Standard Enclosure, assorted hardware, and two tokens.	ICP-EZM2-NA
ICP-EZM2-UK Intrusion Control Panel One control panel with UK Enclosure, transformer, assorted hardware, and two tokens.	ICP-EZM2-UK
ICP-EZM2-LC Intrusion Control Panel One control panel printed circuit board without an enclosure.	ICP-EZM2-LC
Accessories	
DX2010 Input Expander Provides hard-wired expansion for an additional eight input points. Includes the DX2010 board.	DX2010
ITS-300GSM Communicator Enables backup transmission from a control panel's telephone dialer over the GSM network if telephone line transmission is not working. Transmits reports and audio. Compatible with control panels from different manufacturers.	ITS-300GSM
ICP-EZTS Dual Tamper Switch Combination tamper switch with a wire loop for additional tamper outputs.	ICP-EZTS
ICP-EZPK Programming Key Blue key for transferring information to and from Easy Series Intrusion Control Panels.	ICP-EZPK
ICP-EZRU2 ROM Update Key Green key for performing Flash upgrades.	ICP-EZRU2-####
ICP-EZPS Wire-in Power Supply For use in Europe, the Middle East, Asia Pacific, Central and South America. 100 VAC to 240 VAC primary voltage input (AC).	ICP-EZPS
ICP-EZPS-FRA AFNOR Power Supply For use in France. Provides 14 VDC and isolated auxiliary power outputs.	ICP-EZPS-FRA
ICP-TR1822-CAN Plug-in Transformer For use in Canada. 110 VAC primary voltage input. 18 VAC, 22 VA secondary input.	ICP-TR1822-CAN
CX4010 Plug-in Transformer For use in North America. 110 VAC primary voltage input. 18 VAC, 22 VA secondary input.	CX4010
TF008 Plug-in Transformer For use in Australia and New Zealand. 240 VAC primary voltage input. 18 VAC, 1.3 A secondary input. Includes thermal fuses and a three-wire flying lead with earth connection.	TF008
IUI-EZT-5 Easy Series Token Package Five Easy Series proximity tokens.	IUI-EZT-5
