

D8128A OctoPOPIT

Installation Instructions

Control/Communicator Panel Compatibility

The D8128A OctoPOPIT Module is compatible with the following panels:

D7112 all revisions of firmware

D7212 firmware revision 3.01 or 3.02 or higher*

D9112 firmware revision 3.01 or 3.02 or higher*

* These versions of firmware contain corrections that reduce the probability of erroneous reporting of trouble or missing conditions. If you are installing the D8128A on a panel with a lower firmware revision number call customer service for update instructions, or, only connect detectors to the D8128A that provide a normally open contact. See "Point Transitions" in Technogram 73-07227-000 for details.

D8112 systems requiring an OctoPOPIT should be equipped with a D8128B OctoPOPIT. Using the D8128A with a D8112 can increase the probability of erroneous reporting of trouble or missing conditions.

Installation Instructions

The instructions for installing the D8128A with a particular type of panel are found in the panel's *Operation and Installation Manual*. These manuals provide specific wiring and switch setting information that is unique to each system. It is also important to be familiar with the panel's *Program Entry Guide*.

D9112 Systems

L612 Binder includes: *Specification Sheet, Operation and Installation Manual, UL/NFPA Guidelines, Quick Reference for Installation and Troubleshooting, Program Entry Guide, and a Program Record Trainer Sheet.*

D7212 Systems

L626ABC Training Package includes the L634 and L639, plus a set of five videotapes.

L634 Lit Pack includes: *Specification Sheet, Operation and Installation Manual, UL/NFPA Guidelines, Program Entry Guide, and a Program Record Trainer Sheet.*

L639 Manuals on Disk Technical Package includes: Data disks containing the text of the *D7212 Operation and Installation Manual* and the *Program Entry Guide*. The text is fully indexed so you can search both manuals by subject. A DOS based application to run the indexing feature is included. Literature supplements the diskette package: *Manual On Disk Operation and Installation Manual, System Specification Sheet, Illustration Index, Quick Reference for Installation and Troubleshooting, and a Program Record Trainer Sheet.*

D7112 Systems

The *D7112 Operation and Installation Manual* (74-06195-000) is provided with each D7112. In addition, a supplemental installation manual titled *Using the D8128A OctoPOPIT Module with the D7112* (74-06526-000-C) is included with each D8128A.
