6 ACCESS OPTS.

For each code, select the functions available to that user. The functions are Door (DR), Bypass (BY), Arm or Close (CL), and Disarm or Open (OP). Options are entered as 1, 2, 3, 4 or D, B, C, O. Circle the desired options in the chart below.

7 SECRET CODES

First enter the duress trigger (1 or 2 digits), then enter the secret code for each user. All codes should be the same length, from 3 to 6 digits, and no code can start with the duress trigger digit(s).

NOTE: In UL installations, the installer's access code (Code 0) must be at least 4 digits long.

DURESS TRIGGER - _ _

Code #	Access opts				Secret code	User name (reference)

NOTES: Messages 40 and 41 should end with a space.

Message 63 appears for any of these zone types: Undefined, Water, Heat, Cold, Local.

Messages designated "not used" can be shortened to 1 character to make room to expand other messages.

You may also use lower-case letters, by pressing SHIFT and the letter.

CAUTION: Expanding the length of a message may cause some of it to disappear off the end of the LCD display.

10 ZONE TYPES

Use the arrow keys to select the desired type, and press ENTER. Then select the desired options by pressing 1, 2, 3, 4 or S, R, B, N.

Chart of Zone Types:

- | | |
|---------------|-------------------------|
| H - Holdup | G - Gas |
| F - Fire | U - Undefined Auxiliary |
| M - Medical | W - Water |
| P - Panic | H - Heat |
| B - Intrusion | C - Cold |
| T - Tamper | L - Local Auxiliary |

Chart of Zone Options:

- SA - Silent Alarm
- RD - alarm Report Delayed
- BD - external Bell Delayed until dialer fail
- NS - No bell shutdown

11 ZONE LOCATIONS

Enter descriptions such as Front Door, Back Door, etc. (13 characters max.)
