Wireless Emergency Line (WEL)

Our Wireless Emergency Line is a multi use product.

You can use our WEL kit to either activate panic (medical or police) or use the on board relay as a single channel receiver and single channel transmitter.

Convenience
- Simple 4-wire connection – wires exactly like a keypad.
- Instant or 3-second delay single button.
- Control anything that can be activated by relay.
- Water Resistant.

Peace of Mind
- Send police or medical panic via the data bus.
- 4 Billion Encrypted Codes allow you to control any device without giving up security.
- Miniature design – small remote for key chain.
- One remote can work on multiple receivers (i.e. One receiver on your home, one for your business).

Function
- Kit includes: receiver, key fob, neck cord, harness, installation manual
- Plug and play self-programming operation.
- Works with virtually any security panel via the data bus
- If not on a data bus, unit will default to relay mode.
- Great for electronic lock release control
- Easily change from medical or police: instant or 3 second delay.
- Extra Remotes: CEREM1 and CEREM2
- Add up to 7 remotes to one receiver.
