The following data must be entered into the Telular Communication Center computers **prior** to activation on the cellular network.

C/S (Central Station) Account Code: _____

C/S Reporting Format: _____

Primary Receiver Phone Number: _____

Secondary Receiver Phone Number: _____

Telguard DataBurst Remote System Test

All rate plans include options for a Telguard Self-Test signal to be sent to your Central Station. The PASS signal verifies the integrity of the DataBurst system to your central station and logs status information for that system on the Telular Communication Center. The FAIL signal is transmitted to the central station if the Telguard does not respond. Enter the Self-Test Code (s) and the time of day the Test should be transmitted. You may choose to transmit PASS ONLY, FAIL ONLY, or BOTH.

Automatic Self-Test Code **PASS** _____

Automatic Self-Test Code **FAIL** _____

Automatic Self-Test Time _____ AM /PM

(All times Eastern Standard Time)

NOTE: When activating the Telguard DataBurst unit using the Interactive Voice Recognition (IVR) system, you will be required to enter the Dealer number, Installer number, and the unit's Serial number or Confirmation number.

Select a Industry Code:

- (B) – Banks/Financial Institutions _____
