

Control Concord panels with the **FTP-1000 Fixed English touchpad** from GE Security. Messages are displayed in a large and easy-to-see LCD window, and emergency keys are highlighted on the touchpad for safety.

The FTP-1000 Fixed English touchpad allows control of Concord Express, Concord 3, Concord Ultra, and Concord 4 products. The large display provides easy-to-read messages that indicate the current status of the system.

The touchpad includes police, fire, and auxiliary panic buttons that can be activated any time. A built-in speaker provides alarm, status, and button-press sounds. The swing-down door reveals a label with basic system operating commands—or remove the

door by simply opening it past its stop point. The door can be reattached later if desired.

Emergency keys are highlighted on the keypad for safety and ease of use. All keys on the FTP-1000 are backlit to insure error free operation—even in a dark room.

The FTP-1000 offers another choice in fixed English touchpad for the Concord family at a lower price than programmable LCD touchpads.

## Features

- Large easy-to-read display
- Improved backlighting of display and keys for better visibility
- Standalone panic keys
- Standalone arming keys
- Traditional design to blend with any décor
- Easy to install
