Stay Connected
CareGard gives you peace of mind knowing that you're always connected if you ever need help. Maintain your safety, health and independence. Call your local GE CareGard dealer today.

Special Features And Benefits

- Easy installation—no tools required.
- Works with existing phone lines and a standard wall outlet.
- Dependable Call Button with up to 150-foot range.
- Built-in rechargeable back-up power with low battery alarm.
- Peace of mind 24 hours a day, 365 days a year. For more information, call:

Live Independently Without Feeling Alone

Press The Call Button And GE CareGard Dials For Help

Live Independently Without Feeling Alone

Whether you're concerned about your own safety or the well-being of a loved one, you can relax because your personal CareGard is always on duty. All it takes is the push of a button and an emergency response operator is on the line, ready to assist you whenever help you need.

CareGard is on call 24 hours a day, 365 days a year. You continue enjoying a rich, independent lifestyle. Yet you're never alone because CareGard is a constant presence, always looking out for you.

The Home Emergency Call System
Just push the button and CareGard springs into action:

- Automatically dials help in an emergency.
- Two-way conversation. You can communicate vital information, talking and hearing back through the two-way speakerphone capability of the CareGard panel.
- Immediate response. In seconds you will be connected with someone who can help.

CareGard Is Ideal For

- Seniors who live alone or are alone at times.
- People with medical conditions.
- People with difficulty walking in danger of falling.
- Anyone who might need help in an emergency.

CareGard offers everything you need for safer, independent living with peace of mind for you and your family.

Place your personal Call Button on your wall, around your sink or draped to your liking. Or mount it on the wall in a convenient location.

Front Side Flat

CareGard Is Always With You

Your personal Call Button can be worn in a variety of ways to suit your lifestyle. It's waterproof so you can even wear it in the bath or shower. If you fall... have a medical emergency... hear an intruder... or have a fire, the Call Button is always within easy reach. And help is on the way.

How It Works *Press The Call Button And GE CareGard Dials For Help*

Help Center assistance is available when family members can't be - 24 hours a day, 365 days a year

- 1 Press the personal Call Button, and CareGard automatically dials the Help Center.
- 2 A trained Help Advisor answers and talks with you over CareGard's built-in speakerphone.
- 3 The Help Advisor calls for emergency assistance and phones family members, friends or neighbors.
- 4 Your Help Advisor stays on the line with you until help arrives.

If you fall... feel ill... have a medical emergency... have an intruder... hear a fire... simply push the button and help is on the line.

*Monitoring service activation required

The Easy Answer

Rushing to answer the phone can be dangerous if you have health or mobility issues. CareGard lets you answer the phone from anywhere by simply pressing your Call Button. Talk immediately through the hands-free speakerphone, then take your time getting to the telephone.

Simple 3-Step Installation

- 1 Plug in power cord
- 2 Plug in phone cord
- 3 Call for programming assistance

Just press a button and a wireless message goes out to the CareGard panel. Within seconds, an operator responds to your needs.

CareGard Consists: 1- CareGard Panel, 1- Personal Call Button and 1- User Manual

Expand Your Safety Net

For even greater protection, you can add special features like medication reminders, smoke detectors and carbon monoxide sensors. There are activity sensors that send a call for help if you're not moving around as much as usual. You can even add freeze and flood sensors to protect your home when you're away.

GE Interlogix Door Hangers

GE Interlogix

There's No Cause For Alarm

We are installing a security system in your neighbor's home. We will be testing their new system, so don't be alarmed if you hear a siren occasionally sound for a few seconds.

The GE Interlogix security system guards against burglary, vandalism, assault and fire. It can also report personal emergencies. It is reliable and easy to use.

Your neighbor's security system reports to a Central Monitoring Station where operators are on duty 24 hours a day, 365 days a year, ready to dispatch the proper authorities in the event of an emergency.

If you have any questions about your neighbor's system or would like to know how we can protect your home and family, please contact us at the number below.

Concord Express Commercial End-User Brochure

GE Interlogix
Concord Express

Security That Takes Care Of Business

Concord Express safeguards your business—and your bottom line.

This powerful, easy-to-use system offers a range of features that monitor your business day and night. It warns you of intrusion and potential environmental damage. If an emergency occurs, a signal goes out immediately to the Central Monitoring Station, which sends proper authorities rushing to your aid.

Minding Your Business With Advanced Capabilities

You get more for your money, thanks to special Concord Express features.

◦ A built-in radio makes it easy to protect

adjacent buildings or offices without additional wiring expenses.

- Concord Express can send a message to your pager, informing you of openings and closings.
- A high number of user codes lets you manage employees easily and conveniently.
- Concord Express stores time-stamped events for simple tracking of alarms or other operations.
- Separate chime tones can be used for openings and closings, or to cover delivery and service doors.

The Concord Express monitors your home for intrusion, fire, and environmental dangers—whether you're there or away.

◦ Intrusion ◦ Fire ◦ Wireless Touchpads ◦ Medical Emergency ◦ Carbon Monoxide

The Concord® Express Security System

The Right System For Your Business

Concord® Express Security System

Concord Express is the ideal combination of protection and versatility. It gives you the choice to design a system that meets your exact needs and budget. It's also easy to expand your system if your needs change.

Extra power is built in so you can add more protection without buying a more expensive system.

Install System Status Reports

The Freedom To Make Your Own Security Decisions

One Touch Keypad Operation

The Key To Easy Operation.

A convenient keychain touchpad gives you and your employees simple on/off control for very easy operation. No codes for employees to remember or forget.

Paging Keeps You Informed.

Concord Express can send a numeric message to your pager whenever there's a system event. You and your key people are always informed in an emergency.

Speaking Up For You.

Concord Express features voice circuitry that reassures you when you've armed the system correctly—and alerts you if you haven't.

Chime Tracks Comings And Goings.

A chime can sound when door is opened. You always know when someone enters your business.

More Sensors For Total Protection. Choose advanced sensors that detect intrusion, motion, glass breakage, smoke, vandalism, heat, carbon monoxide, flooding, furnace failure and more. Count on Concord Express for the extra sensor protection you need.

Door/Window Sensor

Motion Sensor

CO Sensor

Smoke Detector

Fixed English Display

Armed to Away

ELM Technology. "ELM" Stands For Safety. Encrypted Learn Mode Technology secures every touchpad transmission, and makes it impossible to steal your code.

A Safe And Sound Investment

Whatever your business needs, you get big-time security and peace of mind. Protect your business with the economy and performance of Concord Express.

Security That Meets Your Needs

ARMED TO FIGHT Owning a security system is simply the best approach to protecting your family and your home. This system not only protects your home from intrusion, but it guards against damage by fire, leaking pipes, furnace failure and carbon monoxide. In fact, most insurance companies provide significant discounts to homes with security systems because of the reduced risk of damage to the home.

We provide a proven system with all the protection you need at an affordable price. What's more, it's uniquely expandable to suit almost any home or business. The ability to respond to both hardwire or wireless sensors makes it easier than ever to expand your system when the time is right for you.

Comprehensive Security Protection At A Price You Can Afford

Easier To Use - No Codes To Remember. Family members can't remember access codes? Code-free keychain touchpads make system operation easy for everyone. Turn the system on and off with a touch of a button, from inside or outside the house.

You Are Never Alone. With almost any type of emergency (fire, intrusion or personal) the system is designed to instantly respond automatically or with a touch of a button.

Added Safety. The advanced chime feature informs you when a door or window is opened - so you'll know if your toddler has slipped out the back door.

System is OK
System Armed to STAY

Armed
Ready

Less Worry For Working Parents. Parents need to know when their children are home safely from school. If a child does not disarm the system within a scheduled time, the system will call your pager to let you know.

Keep Safe From Environmental Threats. Carbon monoxide, smoke, heat, water and freeze sensors can detect when danger is present - and automatically respond by calling for emergency assistance.

Proven Quality. Affordable Price. For many people, the cost of sophisticated security seems too high - or the quality of a budget system is too low. Reliable, easy-to-use security has never been more affordable. The system is tailored to meet your needs. Start off with the basic system and expand it as your needs change. Extra power is built in so you can add more protection, without being forced to buy a more expensive system.

Simon End-User Mailer

Simon
Security System

www.ge-intellogicsecurity.com

Simon Says... Simply The Best In Security

Simon® is not only the world's most advanced wireless security system, it is also the easiest security system to install and operate. From hassle-free installation, to ultra-sophisticated sensor design and a full range of innovative "user-friendly" features, Simon puts the power of new technology at your command like never before. When it comes to helping you protect the things you value most, Simon is simply your best choice.

Security Made Simple With Simon

You Are Never Alone
Simon is designed to respond instantly to any type of emergency (fire, intrusion or personal) — automatically or at the touch of a button.

Custom Designed For You
Simon offers a full range of built-in security features. Door chime, for example, lets you know when a child has opened an outside door or when a customer has entered your business.

Easy To Understand System Operation
Simon's built-in digital voice directs you through every step of operating the system. It is so simple that even a small child can follow the instructions and use the system.

Peace Of Mind Installation
Because it's wireless, Simon installs in hours, not days — with no mess, no wires, no dust or imposition.

System Control To Carry With You
Simon offers push-button control you can carry on a keychain or keep bedside.

A Full Range Of Selectable Options

Less Worry For Working Parents
Parents need to know that their children are home safely from school. If a child does not disarm the system within a scheduled time, Simon will call your telephone or pager to let you know.

Be Informed, Wherever You Go
Simon can call any telephone and leave a clear, concise voice message notifying you of system events such as alarms or latchkey disarming.

Your Direct Voice Connection To Emergency Response
Simon provides a nearly instant voice connection to the central monitoring center in the event of an emergency — without the need to press buttons to talk or listen to the operator.

Special Care For Elderly Or Disabled
Simon is designed with special security needs in mind. In addition to a full range of personal emergency pendants, Simon can call for help should it detect a lack of activity within your home or business.

Even More Control
Only Simon offers a supplementary talking touchpad to serve a back door or master bedroom.

X10 Control
Simon gives you the option to control lights and appliances with X10 line carrier technology — by schedule, by event or with the press of a button.
