Thank you for using Alarm.com, the next generation security system for your home or business.

Alarm.com is Easy to Use!

www.alarm.com

The screenshot displays the Alarm.com web interface. At the top, there is a navigation menu with tabs for Security, History, Automation, Notifications, People, and Profile. Below the menu, a breadcrumb trail shows [System Summary] | Sensors. The main content area is divided into several sections:

- Current Login:** Shows Login Name as 'your name' and System as 'your house'.
- Navigator:** A sidebar menu with options: Security (Summary, Sensors), History, Automation, Notifications, People, Profile, Frequently, and Asked Questions.
- Status:** Indicates the system is **disarmed**. It lists active sensors: **Garage Door** is open, **Front Door** is open, and **Kids Room Motion** is activated. A 'Change system state:' section shows a dropdown menu set to 'Disarm' and a 'set' button. A note states: 'No Alarm or Issues have been reported in the past 72 hours. See [history](#) for more information about past Alarms and Issues.'
- Last 15 Events:** A list of recent events with expand/collapse arrows:
 - **Front Door Opened**, at 10:45 am, 22 Feb 04
 - **Garage Door Opened**, at 9:28 am, 22 Feb 04
 - **Kids Room Motion Activated**, at 8:30 am, 22 Feb 04
 - **System Disarmed by Jane Smith**, at 8:10 am, 22 Feb 04
 - **Kids Room Motion Idle**, at 11:05 pm, 21 Feb 04
- Notifications:** A section explaining that notifications reflect the current arming state: **disarmed**. It lists actions for various sensors:
 - if **Garage Door** opens then **email**.
 - if **Front Door** opens then **email**.
 - if **Liquor Cabinet** opens then **call** and **email**.
 - if **Pool Gate** opens then **call** and **email**.
 - if **Kids Room Motion** activates then do not contact anyone.
 - if **Kids Room Panic** activates then sound siren, **call** and **email**.
 - if **Kitchen Smoke** activates then sound siren, **call** and **email**.

You can monitor and control your Alarm.com system from:

Internet

E-mail

Mobile

PDA

Use Alarm.com to See

- ... What doors, windows, and cabinets are open.
- ... Motion activity in your home or business.
- ... All system activity reported in the last 60 days.

Control Your Security System through the Web

- ... Arm and disarm the system from anywhere.
- ... Schedule lights and remotely program your thermostat.
- ... Set up system access codes for family, friends or other authorized users.

Real-Time Notifications

Get an e-mail, text message or phone call for: door and cabinet openings, power outages, system armings and disarmings, water leaks, frozen pipes, motion activity, alarms ... and MUCH MORE.

In the event of an alarm, your central station is notified, even if the phone line is cut or damaged.

A phone line is NOT required.

Get notified via e-mail, text message or phone when any door, window, cabinet or safe opens, and when the system is armed or disarmed.

Arm and disarm your system, control your lights and set your thermostat from anywhere.

Alarm.com is protecting your security system.
