Learn Mode Pendant Panic Sensor

- Can be supervised
- Recessed panic button prevents false alarms
- Neck cord included
- Fits in a holster (separate option)

The Learn Mode Pendant Panic Sensor is activated by pressing a recessed button at the end of sensor. Users can wear the sensor around the neck or in a holster for added comfort and convenience.

**Functions**

**Learn Mode Technology**
Each device has a unique, programmed identity. Control panels recognize and learn the identity of each device in the system, eliminating programming errors in the field.

**Installation/Configuration Notes**

**Compatibility Information**

| Receivers: | Quik Bridge Learn Mode Loop Receiver (P/N: 60-660-01-95R) |
| Expanders: | D208RF Receiver Expander |
|           | D216RF Receiver Expander |
