Enhanced lifestyle

Ultmost convenience

Complete peace of mind

PowerMaxCare

Wireless home security and assisted living system

Visonic's PowerMaxCare sets new standards in personal care and home management with its unique technologies, reliable monitoring and emergency response services, and easy installation and operation.

- Accommodates special requirements with elderly care facilitation
- Personal emergency activators, remote control units, mobile and in-house control with flexible programming options
- Protects premises with motion detectors, door/window magnetic contacts, glass and smoke detectors
- "No activity" monitoring, child care monitoring and pet tolerant detection
- Programmable to alert respective monitoring service centers, authorities, family members or neighbors with "two-way voice" communication
- Control of the alarm system, lighting, entertainment centers, heating and cooling systems, sprinkler system, domestic appliances and social care resources
- Fast and easy installation and user friendly interfacing
- Full visual and vocal guidance, available in a wide variety of languages
- Complies with most international standards

PowerMaxCare™
